

## ERB SOUTH BALTIC AGENDA

Online seminar 9th April 2021

[Euroregion Baltic](#) (ERB) continues its active role as a facilitator of cross-border initiatives in the South Baltic area. Over the years, ERB has built a strong network of cross-border relations involving citizens, political decision-makers, economic and social partners, and educational and cultural institutions. **Our ambition is to use these partnerships for the benefit of inhabitants and local communities in our cooperation area.**

EU funds supporting territorial cooperation will be of special importance in our work and people-to-people collaboration is essential in building relations and should continue to be supported.

If you're interested to learn more on:

- how ERB contributes to the [Interreg South Baltic Programme \(SBP\)](#);
- what are the perspectives and planned policy objectives for Interreg SBP 2021-27;
- how we can align the planned SBP objectives with the work in [ERB Water Core Group](#), [ERB Mobility Core Group](#) and [ERB Youth Board](#);
- what are the possibilities for ERB Stakeholders cooperation in the area of tourism?

Please register for our seminar on 9th April and get involved more in ERB cooperation.
